* These data were compiled from a survey of institutions conducted by the MD-PhD Section Communications Committee of the AAMC GREAT Group conducted in 2012. This list includes programs that responded to the survey, it is not a complete list of all MD-PhD Programs. Column headings correspond to specific questions asked in the survey as follows:

1-Is your program funded by an NIH MSTP Training Grant?

2-Are your MD-PhD positions fully funded, partially funded, or both? (inclusive of stipend and tuition, regardless of funding source)

3-Does your program accept applicants from internal MD students?

4-Does your program accept applicants from internal PhD students?

5-Does your program accept transfer students from other MD-PhD Programs?

6-Does your program accept international students defined as those who are not U.S. Citizens or Permanent Residents?

7-Does your program require GRE scores?

8-Does your program require lab rotations in the summer preceding medical school?

9-Does your program offer PhD degrees in fields other than the core biomedical sciences?
