**PROGRAM OVERVIEW**

This is a PMSR/RRA residency experience and offers additional credentialing in Reconstructive Rearfoot & Ankle Surgery. The PGY-1 year is at Stroger Hospital of Cook County. During this year, the resident participates in an extremely busy clinic and in numerous surgical procedures, including podiatric, orthopedic, and trauma in a county hospital setting. There are additional rotations in Anesthesiology, Behavioral Sciences, Orthopedic Surgery, Pathology and Radiology. The PGY-2 & 3 years are linked to Advocate Illinois Masonic Medical Center a large community hospital which sponsors 10 other residency programs and 3 Fellowship programs. The residents continue their training to increase proficiency in all areas of Podiatric Medicine and Surgery. There are rotations in Emergency Medicine, Infectious Diseases, Internal Medicine, Trauma Surgery, Orthopedic Surgery, and Rheumatology. There is also another Advocate hospital, and the University of Chicago where additional foot and ankle cases are covered.

Advocate Christ Medical Center is a registered PMSR-RRA with exceptionally large diversity of surgical exposure at a Trauma 1 medical center. Residents cover in-house management at Advocate Christ, but will have an additional 8 locations for case coverage in the surrounding area. Residents are expected to perform a large volume of surgical procedures, far exceeding CPME residency requirements, under numerous podiatric and orthopedic attendings on a daily basis. Didactic exposure includes journal clubs, case review, boards review, cadaver workshops, and surgical equipment labs. Residents are given great responsibility and must be ready for repeated night call, trauma call, ER call and have great integrity. Residency salary, benefits, and training experience are extremely competitive with respect to the surrounding area. We are looking for elite residents who are motivated, leaders, problem solvers, and are committed to working in a team-based environment.

This program has been a strong 24-month program since 1989 and has transitioned to 36 months. We are currently approved for the RRA credential. There will be one entry-level position available for the Match. The residents have a large urban university hospital at their disposal for well-planned non-podiatric rotations. Elective options available for second and third years and exceptional salary and benefits. Our graduating residents are well prepared to start their own practice and most feel inclined to do so. All are successful practitioners to date.

As of June 1, 2017, The Bellevue Residency program completed the onsite evaluation in November 2016. The program has made a request for Rear-Foot certification with the Council for July 1, 2018. We are waiting for CPME to approve the program based on the current RearFoot Surgical logs. The Bellevue Residency program is also requesting an additional increase in the number of residents. All residents will rotate through the above institutions. Orthopedic program is available at Bellevue and Jacobi Hospital, New York City. Residents will be embedded with medical residents during the rotations. Weekly clinical & surgical lectures, and grand rounds are part of the resident's schedule.

Beth Israel Deaconess is a primary teaching hospital of Harvard Med School with a level 1 Trauma Center. Residents enjoy access to the extensive libraries on campus, clinical skills labs, and cutting edge lectures in all aspects of medicine, surgery and research. This is a high volume surg prog that provides exposure to all aspects of foot and ankle surgery, including trauma, reconstructive, elective, and diabetic salvage procedures. Residents are expected to manage in-house patients in addition to running a clinic during their 1st year and 3rd year. Chief residents participate in an international mission trip with ample opportunities to gain advanced surgical training. This program is a very hands-on clinical experience with exposure to both Pod & Ortho Attendings. Research opportunities are abundant, including the opportunity to participate in clinical trials, NIH funded research grants, and the necessary support to engage in original research projects.

## PROGRAM OVERVIEW

The program started in 2010 and is fully approved by CPME as PMSR w added credential in RRA. There is an emphasis on reconstructive forefoot, rearfoot and ankle surgery of all types as described above. We are very active with Emergency Room call where podiatric attendings cover all pathology below the tibial tuberosity. Residents cover this call at all times. There is ample time for surgery as well as pre/post op clinical mgmt, practice mgmt and ancillary rotations. The director is a member of a large orthopedic group, and office rotations will take place there as well as in podiatric clinics and wound care/limb salvage clinics. There are attendings from multiple desirable programs including Palmetto General, Florida Hosp East Orlando, JFK, UTHSC, Graduate, DeKalb, etc. Foot/ankle. Pediatric and trauma fellowship trained orthopedic attendings as well. This program will be best suited for energetic, highly motivated, self driven young physicians with a strong work ethic who are eager to learn to excel in this profession.

**PROGRAM OVERVIEW**

Boston Medical Center is a private, not-for-profit, 496-bed, academic medical center located in Boston's historic South End. The hospital is the primary teaching affiliate for Boston University School of Medicine. Boston Medical Center emphasizes community-based care, with its mission to provide consistently accessible health services to all. The largest safety net hospital in New England, Boston Medical Center provides a full spectrum of pediatric and adult care services, from primary care and family medicine to advanced specialty care. BMC is the largest and busiest provider of trauma and emergency services in New England. The Emergency Department had 129,714 visits last year.

BMC Podiatry have over 20,000 outpatient visits and perform over 700 surgical procedures per year. We now have 7 full time teaching attendings.

BU's health and medical education programs have been ranked 22nd in the 2013–2014 Times Higher Education World University Rankings, conducted by Thomson Reuters.

**PROGRAM OVERVIEW**

The Podiatric Residency Program at The Brooklyn Hospital Center consists of PMSR and PMSR-R/RA approved programs, which accepts two residents for the PMSR-RRA and a one PMSR position, effective July 1st 2015 as approved by CPME. The Brooklyn Hospital Center Podiatric Residency Program is a full three year program. At The Brooklyn Hospital Center, residents' practice alongside dedicated podiatric physicians. Our podiatric residency teaching staff and the Program Director are greatly experienced in forefoot and rear foot/ankle surgery, wound care, reconstructive foot surgery, and traumatology. Experience is gained through time spent in clinical facilities, which are predominantly managed by the residents with support by an attending staff. Time spent in a clinical atmosphere allows residents to work up the surgical patient, decide on the most appropriate procedure, and manage the patient post-operatively.

**PROGRAM OVERVIEW**

Hard work, long hours - great training in all areas of Podiatry especially surgery. We have a very busy wound care clinic at the hospital. Beautiful suburban location. WE WILL NOT BE PARTICIPATING IN CRIP DUE TO THE EXPENSE OF TRAVEL. Certified PMSR/RRA with three residents taken each year. Our Program strongly recommends for those students unable to visit during the week due to their rotation schedules, to contact our program and schedule a visit on a weekend.

The CHA Podiatric Medicine and Surgery Residency is a Harvard Medical School affiliated 3 year program approved by the CPME. The residency is authorized for a total of six residents, two in each year of training. The residency is designed with a rotational structure with an emphasis on resource based, competency driven assessment validated training. The resident is provided with a greater responsibility in patient care and decision making as they progress through their training. These experiences coincide with didactic activities such as journal club, skills workshops, case review and lectures. Research opportunities are readily available and a requirement for graduation.

Due to a combination of community-based and referral patients, the medical and surgical volume and diversity is exceptional. The residents are fully integrated into two active outpatient podiatric clinics which allow for resident involvement throughout a patients' medical or surgical management. The residents also scrub and assist in surgery at several local hospitals that are not part of the CHA system.

**PROGRAM OVERVIEW**

The Carilion Clinic section of Orthopaedics and Division of Foot and Ankle Surgery will educate residents, who, upon completion of training should exhibit the knowledge to manage a wide variety of foot and ankle pathology. The residents will complete rotations in radiology, emergency medicine, orthopedic surgery, and podiatric medicine. All rotations are under the guidance of Carilion Clinic faculty and will include a large volume of clinical work in each specialty. During the first year, the resident will complete the majority of the non podiatric requirements. The second and third years will be heavily focused on forefoot surgery, complex reconstructive hindfoot surgery, and orthopedic surgery.

Our Podiatric Residency (PMSR/RRA) is a well integrated program with an emphasis on Podiatric Surgery, diabetic foot care and clinic. Residents will rotate at two major level 2-Trauma hospitals along with our surgical center and Podiatric clinics. With few trainees in the community, the resident will have hands on patient care from day one and rotate almost exclusively with attending faculty.

**PROGRAM OVERVIEW**

Residents will be working with both podiatric and orthopedic surgeons at Chestnut Hill Hospital. Podiatry residents scrub all ankle fractures, achilles ruptures, ankle scopes, etc. Arthroscopic ankle model available to practice freely; monthly saw bones workshops; we strive for a monthly cadaver lab. A smaller hospital environment affords opportunities for "hands on" training with attendings from vascular, plastic, orthopedic, and podiatric surgeons. Voluntary non-podiatric cases with those specialties are available. Close relationship with medical attendings such as infectious disease and radiology willing to lecture. Monthly journal club. Weekly academics includes case reviews, resident/student lectures, surgical videos, and journal article discussions. Externs are granted ranking priority. Students are encouraged to visit the program if they are not able to extern with us. For questions or to schedule a visit, feel free to email chhpodres@gmail.com.

This is a three year podiatric medical and surgical program based out of a successful community hospital in the Inland Empire outside of Los Angeles. This program aims to create podiatric physicians with the clinical and surgical skills to function as independent health care providers in all aspects of lower extremity care. Surgical numbers far exceed what is required in all categories with a wide variety of foot and ankle pathology, including diabetic limb salvage, elective reconstruction and trauma. The residents are fully integrated with allopathic and osteopathic residents. Our residents receive experience working with different attendings in private practice, academic, and military-based settings as well as county hospitals. This program aims to create podiatric physicians who can think rather than simply be technicians. This is accomplished through a competency-based curriculum that includes clinical, surgical, didactic, and required research experiences.

Columbia St. Mary's three year podiatric residency program emphasizes all aspects of podiatric care from basic clinical experiences to advanced reconstructive procedures. Program with PMSR with rearfoot/ankle certification. Minimum surgical numbers are easily met and exceeded in all categories. The program is designed to start out first year similar to a typical internship year, focusing on medicine while also starting surgical integration that continues to build throughout one's residency experience. Learning is hands-on and interactive; learning surgery through doing, not watching. Looking for enthusiastic, highly motivated individuals wanting to excel in the podiatric profession. Brand new main hospital location opened in 2010 within 2 blocks of Lake Michigan. See website or contact above emails for more details

Community Health Network Podiatry residents are provided a diverse education in all aspects of podiatric medicine including: sports medicine, surgery, inpatient care, advanced wound care, and private office management. Prospective residents can expect an abundance of first-hand surgical experience, including forefoot procedures, trauma, reconstructive rearfoot and ankle cases as well as experience in a surgical based resident run clinic with an orthopedic attending. Currently, residents cover 6 hospitals and 7 surgery centers in an expanding health network with a receptive orthopedic community. All residents are given the opportunity to participate in research, and there is ample opportunity for publication. Journal club, surgical workshops, and PRESENT lectures provide continued didactic experiences. Residents enjoy complimentary meals while on duty. Resident salary and benefits provide for a comfortable lifestyle in a clean and safe major metropolitan area boasting professional sports teams, plentiful outdoor activities, attractive cost of living, and family-friendly activities.

The podiatric residency program at Cooper University Hospital is designed as a Podiatric Medicine and Surgery Residency with Reconstructive Rearfoot/Ankle Surgery program. Cooper University Hospital, the clinical campus of Cooper Medical School of Rowan University, is a tertiary care medical center and a level 1 trauma center which serves the entire southern half of New Jersey. The hospital also provides primary care in the surrounding communities. This program is currently approved by the Council on Podiatric Medical Education and is 3 years in length.

All applicants must show proof of successful completion of Part I & Part II of NBPMPE before a residency position can be offered. All applicants to our program must sign CASPR release for us to receive board score results. Letters of recommendation should be sent through CASPR by the deadline.

NOTE: If your file is incomplete, this includes the application fee, it will not be reviewed when considering applicants for interviews.

**PROGRAM OVERVIEW**

The podiatry staff of DeKalb Medical is composed of some of the foremost educators in the profession. Residents are exposed to patients with a large diversity of pathologies and approaches to treatment. We cover a large number of trauma cases from 3 different emergency departments. The hospital experience is supplemented with office clinics in two busy offices and in a charity clinic which is covered by the residents as well as a wound clinic.

We believe that the quality of the educational experience of this program is reflected in the success of many of our graduates. Numerous graduates of the program have served the profession in a variety of ways, including full time faculty members of some of the colleges of podiatric medicine, leadership roles in state societies, the American Board of Podiatric Surgery, the American College of Foot and Ankle Surgeons, as well as being recognized authors and lecturers.

**PROGRAM OVERVIEW**

The Podiatric Residency Program is well integrated into the teaching hospital system. This program is designed for the self-motivated candidate who is eager to maximize their learning opportunities. Residents cover six hospitals, eight surgical facilities and 140 podiatric attendings. Clinical and surgical experience covers all aspect of foot and ankle pathology. Four resident foot and ankle clinics as well as multiple private offices are available for clinical podiatric experiences. Residents are expected to participate in the publications and lectures. There are over 1,100 residents and fellows being trained at the DMC. All rotations are coordinated with those of other specialties, and as such our residents are expected to function as equals to the allopathic residents. Our Orthopedic Trauma rotation (Level 1 trauma center), Pediatric Orthopedic Surgery rotation, Medicine, Vascular surgery and General surgery rotations are particularly strong and will provide the resident with dramatic increases in their knowledge, skills and confidence.

This is a newly approved PMSR/RRA program that encompasses all aspects of Podiatry including forefoot/rearfoot/ankle surgery, general podiatric medicine, and wound clinic (in conjunction with the plastic surgery department). Time will also be spent with our Physical Medicine and Rehabilitation department in regards to amputation prevention as well as post amputation rehab. The Podiatry staff as well as Hospital Administration and all other rotation faculty are highly motivated in the training and education of all residents and medical students at the facility. Scheduled outside rotations (2 months out of each year) with local private practices will afford each resident practice management skills, pediatric experience, and other private practice pearls. Ten months of each year will be spent at the VA facility, which is located on an impressive 337 acres on the Gulf of Mexico with beach access 2 miles away.

**PROGRAM OVERVIEW**

This is one of the premier surgical residency programs in the country with more awards won at the National Post-Graduate Research Forum than any other program. Research is an important part of our program. Many of our faculty are nationally and internationally recognized experts in nerve decompression, charcot reconstruction, joint replacement, and external fixation. Our faculty is internationally renowned, and regularly lectures throughout the United States, Europe, North America, and the Middle East. Our residents benefit from the world stage this program has, and not only keep up with worldwide knowledge exchange, but also rotate with the world's best foot and ankle orthopedic surgeons, trauma surgeons, and podiatric foot and ankle surgeons. Also, one of the best overall experiences in podiatric foot and ankle surgery. The very rare excellent program with the diversity to give residents competence in everything from pediatric reconstruction, charcot reconstruction to ankle replacement under probably the most reputable and morally intact faculty nationally.

**PROGRAM OVERVIEW**

The Louis Stokes Cleveland VA Medical Center Residency Program is a well rounded comprehensive training program based at a large veterans hospital, which is a primary referral site for several outpatient clinics. The hospital is a full service complex medical center with adequate resources to support the educational program. The podiatry service is staffed by a large dedicated group of teaching faculty, all fully trained in comprehensive medical and surgical care of the foot and ankle. Additionally, the residents have the opportunity to rotate through a number of different offices and hospitals for increased surgical experience, particularly in the areas of trauma and pediatrics. There is a comprehensive academic program in place to encourage educational growth and research. The program requires a GPA of at least 3.0 and passing of Boards Part 1 and 2 to apply.

One of the few VA's that has a fully implemented sharing agreement with the military that has combined podiatry clinics from the VA and medical clinics at an Air Force medical clinic to allow veterans and active duty and their families to be treated side-by-side. Our facility is one of the very few VA's that treats children in our own clinics. Our Wound Care Foot Clinics prepare the resident for an active wound care practice. The clinic deals with high risk pre- and post-amputation patients, advanced wound technology, bioengineered tissue grafts, and limb preservation surgery. Podiatry Service at this VA is a Direct Admit Service and we are involved in all phases of a patient's care, we have OR time on Monday, Tuesday, Thursday and Fridays. Montgomery has a very affordable cost of living and is close to Atlanta and the Gulf beaches.

**PROGRAM OVERVIEW**

The program is approved for the added credential in reconstructive rearfoot and ankle surgery. Three positions are available for each year. The program emphasizes core medical rotations with various medical sub specialties in the PGY-1 year. Reconstructive rearfoot/ankle surgery and limb salvage/ wound care are emphasized by participation of PGY-2 and PGY-3 residents in Kettering Hospital System and the Miami Valley (Premier) Hospital System. Miami Valley is a level one trauma center. Extensive experience will be obtained treating all types of wounds and most wound care modalities are available to include hyperbaric oxygen. Elective outside office rotations are available with local practitioners as a third year resident. Ilizarov frame reconstruction as well as total ankle replacement surgery is under the instruction of Gary J. Labianco DPM who is a Podiatry Institute faculty member. Surgical experiences with limb salvage, plastic surgery and flap reconstruction are available at the Cincinnati VA with Suhail Masdeh, DPM who is fellowship trained in these techniques.

**PROGRAM OVERVIEW**

This is a PMSR/RRA program with academics, surgery and clinical (inpatient/outpatient) care. The program has been active for over 37 years. This podiatric residency is based in a Veterans Affairs teaching hospital and is integrated with other allopathic residency programs with residents from the University of Colorado Health Sciences Center. Affiliated institutions include major hospitals and multiple surgery centers in metro Denver and Colorado Springs. There is a large volume of elective, emergent and reconstructive surgery, including instruction in arthroscopy and advanced techniques. Exposure to lower extremity biomechanics, diabetic foot care and wound care is integrated into the residency. Residents sign a yearly contract.

We will be moving to our new state-of-art facility in March, 2018.

**PROGRAM OVERVIEW**

VA Illiana Health Care System in Danville, Illinois offers a 3 year PMSRw/RRA residency program, approved by the Council of Podiatric Education. Resident rotations provide a full scope of medical training in team based interdisciplinary settings. Podiatric surgical training is also provided at Carle Hospital, Presence Hospital, Christie Clinic, and with Foot and Ankle Specialists. All aspects of podiatric surgery including forefoot, midfoot, & rearfoot reconstruction, Charcot reconstruction, foot & ankle trauma, limb salvage and arthroscopy are offered. Competencies are met through training in these diverse facilities. Present courseware and board review courses are also available.

The PMSR program offers the resident the medical, biomechanical and surgical skills necessary to treat the foot and ankle. The first year concentrates on the medical and biomechanical management of the foot and ankle with a concentration in diabetic and high risk limb preservation. The second and third years offer the resident a wide variety of elective surgical opportunities in surrounding community hospitals and surgical centers. There is a didactic lecture series with presentations and surgical workshops. The residents intergrate into several training experiences with the surgical and medical residents from the Penn State Milton S. Hershey Medical School on the University Service. The facility offers its employees both a fully equipped fitness center and a convenient day care center on the premises. The hospital is located in a family-oriented community with excellent outdoor recreational activities.

**PROGRAM OVERVIEW**

PMSR-RR/A [36 month] residency. Rotations are Baltimore VA, Rubin Institute for Advanced Orthopedics, University of Maryland Medical System, Washington DC VA, Walter Reed National Military Medical Center, Martinsburg VA. Emphasis is on the complete care of a wide variety of patients. Our program emphasizes hands-on training. Special emphasis includes diabetic limb salvage and limb preservation surgery. The program has state of the art paperless medical records systems as well as digital and 3D imaging technology. Successful candidates should be interested in well rounded, technologically advanced training that will prepare them for successful practice in a variety of health care settings and board certification. Our ideal candidate continually improves themselves academically and technically; is self motivated; capable of working independently to achieve a goal and work as part of a team to achieve group goals. The successful applicant must meet all of the eligibility requirements for employment by the Veteran's Administration.

**PROGRAM OVERVIEW**

The program is co-sponsored by NM VA Healthcare System and Kaiser-Sacramento. As of July 1, 2015, TWO out of 4 PGY III residents will go to Kaiser-Sacramento for the third year and the others will remain at the VA ABQ. All sites are designated as PMSR with added credential in RRA. The NM VA Healthcare System has a "sharing agreement" with Kirtland Air Force base which allows our residents to treat young active adults as well as their dependents. The surgery schedule is also very busy and runs 2 full and one 1/2 day per week with add ons as necessary. All residents share call responsibility. Podiatry covers all lower extremity trauma from our emergency department. The program is well rounded but surgically sways toward advanced trauma and reconstruction of the foot, ankle and lower leg. There is a separate Nail Clinic ran by Nail Health Techs. The residents spend a month at Carrie Tingley Children Hospital and mission trip to Nicaragua to gain training in Pediatric Orthopedics. In addition, the residents rotate at a private office focusing on Ponseti clubfoot casting.

The 3 campus hospital system coupled with affiliations with an Ambulatory Surgery Center and an Arizona hospital offer an enriched, well-rounded residency educational experience. Located in Manhattan, Brooklyn and Queens, the program maintains affiliations with a local high volume surgery center as well as Banner Desert Medical Center and Desert Foot & Ankle PC in Mesa, AZ. The 1 month rotation each resident performs each year in Arizona offers an in-depth training experience in office management, pediatrics, trauma, as well as exposure to complex foot and ankle surgery. The Arizona rotation is required and not reimbursed.

The PMSR/RRA program provides a full scope of surgical training in ALL training years with over 50 surgical attendings. Extensive clinical training is also provided in wound management and limb salvage. The treatment rooms in the podiatry clinic are large, clean, and spacious, each with a computer for computerized medical records and digital x-rays, internet access and the "PRESENT" lecture series. The newly renovated operating room is state-of-the-art utilizing the latest technology. Great location: 30 minutes to NYC, 45 minutes to the Jersey Shore, 90 minutes to Philadelphia, 4 hours to Boston and 4½ hours to Washington, D.C. The program is well established, stable and fully approved for eight residents by the Council on Podiatric Medical Education. Since the program's founding in 1988, over 110 podiatry residents have been trained.

**PROGRAM OVERVIEW**

The DVA Northport/StonyBrook University residency offers well-rounded residency training experiences with a wealth of in and out-patient clinical care. Extensive training in diabetic limb salvage, multidisciplinary wound care, elective and non-elective surgery, biomechanical exposure, and clinical rotations requiring active resident participation. The affiliates provide a wealth of exposure to forefoot and rearfoot surgery as well as provide extensive trauma, RRA surgery, elective and non-elective surgery with foot and ankle MDs and DPMs as well as training on the Podopediatric patient. 1st and 2nd year residents spend 1 month in Mesa AZ at an affiliate at their own expense. Please be aware of this when applying. Interested students should be aware that externships are HIGHLY encouraged. A 250 word essay entitled "I wish to do my 3-year residency at DVA-Northport because.." is required to complete your application. Email essay to Thomas.Kraemer@va.gov. Residents spend their entire 3rd year at Stonybrook University.

**PROGRAM OVERVIEW**

High-paced program dealing with a full variety of medical and surgical pathologies. Busy daily clinic from which residents develop superior clinical skills and their surgical cases. All residents exceed surgical requirements for ABPS. One sixth of time is spent on external podiatric surgical rotations in the Phoenix valley. Graduates have a broad experience caring for complex medical patients in both the inpatient as well as out patient settings. Furthermore, they have significant experience with a wide variety of podiatric pathologies, wound care, podiatric surgery, and the podiatric/medical training necessary to manage any patient (or complication) encountered in podiatric practice. All residents are board qualified upon completion of training and have been successful in private, group, and multidisciplinary practices.

The Carl T. Hayden Veterans Affairs Medical Center PMSR/RRA program is approved by the Council of Podiatric Medical Education for 12 residents (4 each year) through 2019-2020 when our next onsite evaluation will take place.

**PROGRAM OVERVIEW**

The Salem VA Medical Center Residency Program is a well rounded comprehensive training program based at a large veterans hospital, which is a primary referral site for several outpatient clinics. The hospital is a full service complex medical center with adequate resources to support the educational program. The podiatry service is staffed by a large dedicated group of teaching faculty, all fully trained in comprehensive medical and surgical care of the foot and ankle. The program requires a GPA of at least 3.0 and passing of Boards Part 1 and 2 to apply.

**PROGRAM OVERVIEW**

VASF is a training institution affiliated with the University of California SF and is a high-powered residency which represents the pinnacle of podiatric training in the Bay Area. The program utilizes training resources at VASF, UCSF, and SFGH. Additional experiences include UCSF Pediatric Ortho, UCSF Center for Limb Preservation, SFGH Ortho Gold (Foot & Ankle Service) & Mission Peak Orthopedics (private practice). Training encompasses all areas of foot and ankle surgery including trauma, pediatrics, limb salvage, advanced wound care and private practice experience. You will work side-by-side with the top surgical residents in the country from UCSF. We provides an incredibly well rounded podiatric surgery residency in San Francisco. Highly motivated and serious candidates should apply. Candidate must complete a clerkship at the program in order to apply for the program. CPME Approved PMSR/RRA 10/22/16.

**PROGRAM OVERVIEW**

We emphasize the training of a well-qualified podiatric surgeon, competent in all aspects of podiatric medical and surgical care. Throughout the three year program, residents are treated with respect and as professionals. Our residency is developed around the concepts of critical thinking, decision making, and increased responsibility. Tremendous opportunities exist for podiatric research. Publication in a peer-reviewed journal is required for graduation. Extensive wound care experience is available. Attendings are dedicated to teaching and provide one-on-one instruction. Externs encouraged to apply.

The mission of Eastern Virginia Medical School's Podiatric Residency is to provide the highest quality of care to patients, while providing the highest caliber of podiatric surgery training and education in an academic and clinical environment. Each resident develops a strong level of competence through the quality involvement of the EVMS faculty. Our program exposes residents to an extraordinarily wide variety of patients and pathologies of the foot and ankle. Comprehensive competencies are presented to our residents for their mastery. Residents are trained in both surgical and academic settings. Through 25 years of experience, the director, Dr. Patrick Agnew, provides residency training ranging from care of infants and children to adults. He is on the national Advisory Network for Ehlers-Danlos National Foundation, and is experienced in rare connective tissue disorders. Dr. Agnew is the pediatric editor of the Journal of Foot and Ankle Surgery. Dr. Agnew's knowledge and experience allows him to educate the residents of conservative and surgical management of the F&A.

The program is located in Northwest Indiana approximately 35 minutes from downtown Chicago. As the only full time residents at St. Margaret Hospital the residents are able to scrub all cases as a first assist, regardless of specialty. The surgical exposure is complete and extensive, including rearfoot reconstruction, external fixation, basic orthopedic trauma, ankle arthroscopy, diabetic limb salvage, forefoot deformity surgery, and sports medicine injuries. Podiatry is integrated as part of orthopedics. Podiatry cases and lower extremity orthopedic cases are covered during podiatry surgery rotations. There are two residents selected each year for a total number of six residents. Clinical experience is also emphasized. Residents spend one on one clinical time with attendings in private practice settings weekly. Academics are completed monthly including topic specific study and presentations, case reviews, and journal club.

Visits and externships are recommended.

Incoming Residents are expected to attend hospital wide orientation in the middle of June. Orientation schedules are emailed after residency match.

**AVAILABLE RESOURCES****Sample Contract:** At CRIP**Benefit Package:** At CRIP**Curriculum:** At CRIP**PROGRAM OVERVIEW**

Geisinger Community Medical Center is a PMSR/RRA certified program involved in all facets of podiatric medicine and surgery. Residents rotate with all specialties and implement wound care practices and Hyperbaric Oxygen therapy in a hospital based wound care center. Strong surgical skills are enforced with excellent guidance from staff Attendings in all aspects of foot and ankle surgery including Charcot reconstruction, rearfoot and forefoot procedures, ankle arthroscopy, Ilizarov frames, limb salvage, and trauma. Private practice and hospital based clinics are included in the curriculum encompassing all aspects of podiatric medicine. Residents experience a strong focus on pediatric pathology and deformity correction during a rotation at the Rubin Institute for Advanced Orthopedics at Sinai Hospital in Baltimore, Maryland. Research and education remains a priority as residents continue to present research at national conferences and publish in multiple print medias each year. An externship is strongly recommended however, not required to be considered as an applicant.

Our residency places a large emphasis on academics. Weekly journal clubs, online lectures, guest lectures, cadaver workshops, case presentation and grand rounds comprise our didactic schedule. Our residents attend outside podiatric lectures and participate in programs offered by the New York College of Podiatric Medicine and other surrounding Metro NY institutions. By the completion of the third year, each resident is expected to have completed a case presentation and paper of publishable quality.

Having a large podiatric attending staff provides residents with a multitude of surgical cases and procedures. In addition, the podiatry service has an excellent working relationship with the Department of Orthopaedics affording our residents the opportunity to assist on a great majority of surgical cases including all foot and ankle trauma.

Three year program leading to eligibility for certification examination by the ABPS. Blends inpatient and outpatient experiences to closely resemble the practice of podiatric physicians. Two entry-level positions available. Faculty has a strong commitment to teaching, as does the whole institution. Our focus is to train podiatric physicians who are excellent clinicians and understand the basic science behind surgical procedures. Located in beautiful Western Wisconsin on the banks of the Mississippi River. Many sporting and cultural activities available year-round.

**PROGRAM OVERVIEW**

The HealthAlliance Hospital's Broadway Campus Podiatric Residency Program (formerly The Kingston Hospital) provides training in all the core competencies. Our program provides the unique opportunity of working one on one with board certified physicians throughout the resident's respective training.

The program is located in the Hudson Valley area of NY and is two hours north of NYC and one hour south of the Albany by car. The area provides a wide berth of activities including a vast array of outdoor activities such as hiking, boating; sports; county fairs and festivals; wine tasting; skiing; horse shows; concert venues, restaurants of all culinary delights etc.

**PROGRAM OVERVIEW**

Two entry level positions for the Podiatric Medicine and Surgery Residency (PMSR with added RRA certificate) are available to graduates from all colleges. A well rounded clerkship is available and visitors are welcome. Please call to speak to our residents if you are unable to visit. Regions Hospital is a Level One Trauma Center affiliated with the University of Minnesota. The majority of training occurs at the hospital, HealthPartners Same Day Surgery Center and HealthPartners Specialty Center. Daily travel between these sites is less than 1 mile. The Foot and Ankle Surgery/Podiatry Service is very active and integrated with the Emergency Department, Trauma Service, Wound Program, Orthopaedics, Plastic Surgery, and Inpatient Medical Services. Residents are respected as a vital part of our Foot and Ankle Team. Please visit the program website at: <https://healthpartnersohpe.com/current-trainees/sponsored-residents/foot-and-ankle-surgery-residency-program> for additional information.

**AVAILABLE RESOURCES****Sample Contract:** At CRIP**Benefit Package:** At CRIP**Curriculum:** At CRIP**PROGRAM OVERVIEW**

HCMC offers a three year Podiatric Medicine and Surgery residency program with Rearfoot Reconstructive and Ankle Surgery (PMSR/RRA). The residency will take 2 residents per year. Residents have been selected from many podiatric medical schools. Student externs who function well obviously have an advantage in the application process. The overall goal of the training program is to facilitate the acquisition of the essential training resources required to sit for board qualification in Foot Surgery as well as RRA Surgery by the American Board of Foot and Ankle Surgery (ABFAS). Minnesota's longest running and largest residency program is based at HCMC, a Level I Trauma Center, located in the heart of downtown Minneapolis. The program is affiliated with other large multi-specialty clinics and hospitals in the Twin Cities area to offer a diverse patient population for the learning experience. All staff members are Board Qualified or Board Certified by ABPS. Please feel free to email any questions and remember to send supplemental applications materials to: [hmcresidents@gmail.com](mailto:hmcresidents@gmail.com).

**PROGRAM OVERVIEW**

Our program boasts a large diverse surgical volume and an extensive academic curriculum. In past five years, residents graduated with two and half times the minimal requirements set by the CPME. Our program has a very diverse case load. Residents can expect close to three times the minimum requirements in RRA procedures. Our academic curriculum includes weekly lectures, monthly journal club, Mann review, monthly research forum, and live case presentations. Our residents are treated like traditional Osteopathic residents during the medical and surgical rotations. Our program provides an extensive amount of clinical exposure. The clinic provides minimal routine foot care and accounts for 40% of the program's surgical volume. Residents spend one day a week at the hospital-based wound care center.

We are a comprehensive three year program (PMS/RRA) providing a well rounded educational experience. Our residents complete the program with well balanced surgical, medical, and practice management skills that helps to serve as a basis for a successful transition into group or private practice. Our residents have the added advantage of scrubbing all orthopedic and podiatric foot and ankle cases creating an unique perspective. The resident also has an opportunity to serve a medical mission to an underserved area of the world for one week if they so desire. Residents staff several resident run clinics to gain valuable experience in evaluating, treating and following patients on their own with supervision from attending podiatrists as needed.

A well-rounded program with a heavy emphasis on reconstructive surgery and trauma of the foot and ankle. The program is accredited as a PMSR/RRA by CPME, with 5/5/5 positions. Expansion has occurred to all CarePoint Healthcare facilities including Christ Hospital and Bayonne Medical Center. The podiatry staff at Christ Hospital has started a foot and ankle ED call schedule that is modeled after the high volume foot and ankle ED call schedule at Hoboken UMC. Excellent outside rotations and a great working relationship with the general medical staff. Our residents are the only surgical residents within the healthcare system other than general Surgery. We are enrolled in the Present online lecture series and have a full schedule of supplemental lectures, workshops and journal clubs. Weekly radiology grand rounds of all interesting cases. This system is growing, robust and financial stable. The residents are credentialed at all three acute care hospitals allowing for expansive clinical exposure..

**PROGRAM OVERVIEW**

Well rounded PMSR/RRA Program in the heart of Huntington, NY. Huntington Hospital is a member of Northwell Health System and is an area trauma center and has extensive lecture series and research opportunities with access to Hofstra Medical School and Feinstein Institute for research. We are an approved PMSR/RRA program by the CPME as of 7/15/16 for one PGY1, one PGY 2 and one PGY 3 position. We currently have a PGY 1 resident and a PGY 2 resident and are looking to fill the PGY 1 spot in July 2017. The program offers extensive training in Forefoot/Rearfoot surgery including elective foot surgery, diabetic wound care and limb preservation, trauma and an emphasis on reconstructive rearfoot and ankle surgery. There is a strong Orthopedic relationship which includes a diverse rotation with a Orthopedic Foot and Ankle specialist at Huntington Hospital. The clinical experiences and rotations are Huntington Hospital based with minimal travel to Dolan Family Health Center for Podiatry Clinic, and Melville Surgery Center for ambulatory surgeries.

Inova Fairfax Medical Campus, an 833-bed teaching facility, houses Northern Virginia's only Level 1 trauma cntr and is the off-site campus for the VCU med school, with residents fully integrated within the GME community. Strengths of the Program include extensive training in reconstructive rearfoot & ankle surgery, plastic surgery and limb salvage, strong didactic program, hands-on medical rotations, a large podiatric and medical teaching staff, a busy in-patient podiatric service, a formalized trauma rotation in conjunction with the orthopedic trauma team. Extensive hands-on clinical training is available at the Inova Transitional and CHCN Merrifield foot clinics. Rotation at Winchester Medical Cntr includes podiatric surgery, and ortho foot & ankle trauma (Hospital provides housing). Weekly cadaver dissection workshops & seminars at the Advanced Surgical Technology & Education Center, the on-campus surgical clinical skills lab.

**PROGRAM OVERVIEW**

Residency at Jackson North Medical Center focuses on all sub-specialties of Podiatric Medicine with an emphasis on Foot & Ankle trauma. Residents participate in yearly publishable research projects. Our affiliation with the Barry University School of Podiatric Medicine and the Brand Center of Research allows our residents to participate in on-going medical research. We are also affiliated with Dr. Robert Snyder's Post-Residency Wound Care/Research Fellowship, of which graduates of JNMC are given preference. Residents have the opportunity to participate in medical mission trips with the Yucatan Crippled Childrens Project as well as with the Podiatry Overseas Association in Africa, Brazil, and Guyana.

**PROGRAM OVERVIEW**

We would best describe our program as being very well rounded. The program was reclassified as a PMSR with added RRA credential in 2012. The first year the residents rotate through a myriad of Podiatric and Non-Podiatric rotations. They are highly exposed to diabetic wound care, geriatric care, community based out patient foot care and inpatient hospital care including emergency medicine. Our second year they gain valuable forefoot surgical experience. The third year will concentrate on rearfoot and ankle surgery. We have been averaging 500-600 podiatric surgical cases/year. The residents participate in plastic, vascular, and general surgery as well. Our graduating residents are well trained and confident in their knowledge and experience to go out and practice fine podiatric medicine and surgery.

JSUMC is a robust program with outstanding multidisciplinary educational opportunities. We have several well trained and busy surgeons with a high volume of cases covering a wide variety of procedures to treat any pathology which you may encounter in the foot and ankle. We use state of the art technology in a fantastic hospital with strong administrative and academic support. We have a busy inpatient service, as well as a wound care center with HBO. We have an active ER call with an exciting case load in a level II Trauma center. Residents and students who have the opportunity to train with The Podiatric Surgical Program at JSUMC will benefit from a quality educational experience and will graduate with all the necessary tools to practice Podiatric surgery effectively in whichever environment they choose to practice.

This is a PMSR with Rearfoot/Ankle Reconstruction approved by CPME. A vast array of clinical exposures is made available to the residents of the program to assure both diversity and volume of both medical and surgical experiences! Our affiliation with the University of Louisville, a level 1 Trauma Center and teaching hospital, assures our resident have an abundance of opportunities in traumatology with an emphasis on lower extremity foot and ankle trauma. Wound care opportunities are made available at each of our institutions working closely with diabetic and traumatic wounds as part of the wound care team. Our faculty includes 21 Podiatric and over 20 allopathic physicians in multiple specialties. This provides a very favorable learning environment for our residents. Externship is mandated to be considered for a residency position at our Program. The Program provides free room and board for those chosen as our Externs. Further information can be found on our residency Web site ([www.jhsmh.org/podiatry](http://www.jhsmh.org/podiatry))

JFK Medical Center Podiatric Residency Program is a PMSR/RRA approved program by the Council on Podiatric Medical Education. There are two entry-level positions available with a three year commitment. This program offers a significant volume of reconstructive rear foot and ankle surgery. JFK Medical Center is conveniently located in the heart of Palm Beach County in close proximity to colleges/universities, desirable residential communities, beautiful beaches, excellent schools, Palm Beach International Airport, and train & bus transportation. The program offers a unique, multi-disciplinary approach to resident education. There are a large number of Allopathic rotations which are extremely unique.

The program at Kaiser - Vallejo is a consortium with the Kaiser Medical Centers in Vallejo, Vacaville, San Rafael & Santa Rosa. We take three residents per year for a PMSR/RRA program with training in all aspects of podiatric medicine and surgery including TAR. The first year rotations are done at Kaiser Vallejo with one month rotations at Highland ER and San Francisco General Hospital UCSF. Second and third years rotate through the various Kaiser facilities in four month blocks. Kaiser Vacaville is a Level 2 Trauma Center. Visit our web page for full details.

We offer a one month clerkship for fourth year students but it is not required for application to the residency program.

**AVAILABLE RESOURCES****Sample Contract:** At CRIP**Benefit Package:** Contact Program**Curriculum:** At CRIP**PROGRAM OVERVIEW**

This program is a high powered three year surgical residency program designed to train residents to become fully competent in all aspects of foot and ankle surgery. The program is designed to provide a complete and intense surgical, clinical, and medical experience for the podiatric resident. Residents will have a unique opportunity to see a high volume of complex foot and ankle pathology in a large multidisciplinary setting. This program is seeking the most motivated and talented students. Strong emphasis is placed on resident research, academics, and an exemplary work ethic combined with hands-on training to develop future leaders in the profession. The program was reviewed by CPME on March 2014 and recommended for credentialing as a PMSR with the RRA credential. The first year of training is conducted primarily at Kaiser Oakland in tandem with other interns from various disciplines. During the second and third years of training, the resident spends four-month blocks in Foot & Ankle Surgery at Kaiser Oakland, Walnut Creek/Antioch, and San Francisco.

**PROGRAM OVERVIEW**

Excellent all encompassing program focused on all clinical and surgical aspects of podiatric care. Enthusiastic and motivated instructors that provide instruction for "real life" podiatry. Busy clinics and surgical case load from forefoot and rearfoot reconstruction, pediatrics, forefoot and rearfoot revisional cases, internal and external fixation, all foot and ankle trauma, and total ankle joint replacements. Program goal is to make the resident a confident and competent physician and surgeon in foot and ankle care. Located in rural Illinois approximately 1.5 hours from Chicago, 45 minutes from Rockford, IL, and 45 minutes from Quad Cities, IA. Fantastic environment in which to learn with full collaboration with hospital staff/providers.

**PROGRAM OVERVIEW**

The program is multifaceted and well-rounded. Surgical experience includes forefoot, rearfoot and ankle surgery. Resident's are required to have a paper of publishable quality by the time of graduation. There is a wound care center which will provide training and experience in all phases of diabetic wound management, PVD, neurologic conditions, osteomyelitis Charcot reconstruction and limb preservation. The hospitals consist of 3 divisions (Washington Township, Cherry Hill and Stratford) along with the (2) Kennedy surgical centers where surgeries and patient care occurs. We have been approved by the CPME as a PMSR with RRA Certification "PMSR with RRA cert". Upon completion of the residency training, all graduating residents will be able to become board certified in rear foot and reconstructive ankle surgery after residency.

Program is approved PMSR/RRA.

Program maintains a surgical wet lab that is fully equipped for forefoot, rearfoot & ankle procedures on cadaveric specimens. This includes full arthroscopy capabilities and fluoroscopy. Each resident receives three cadaveric limbs per year to enhance surgical skills, a personal set of surgical instruments. Residents will participate in the clinical case conference webcast which is moderated by faculty. All residents receive memberships to national, state, and local podiatric medical associations as well as ACFAS/ACFOAM. Select residents may have the opportunity to attend microsurgical training and ACFAS learning center courses. The program offers extensive rotations and faculty consists of many ABFAS/ABPOPPM Board Certified podiatrists. Program Library has latest podiatric, orthopedic medicine texts and journals. Past graduates hold leadership roles in many state and national organizations. This creates a networking opportunity for post residency employment.

Lakewood Regional Medical Center's residency program was founded in 1981. The program has enjoyed considerable stability and prosperity for over three decades. Dr. Lawrence Hodor has been the program director since 1986. The facility is a state of the art 161 bed acute care facility located in Lakewood, CA (near Long Beach).

Surgical numbers are impressive and far exceed what is required in all categories. Residents have their own office with a computer and internet access.

The resident doctor is treated with respect and dignity by the hospital and physician staff. The atmosphere is conducive to learning with a friendly, constructive, podiatric staff. The program provides excellent practice management opportunities in the private offices of many different physicians.

Residents gain significant experience in managing diabetic foot infections, wound care, amputations, hospital consultations and working in a "team approach" to inpatient management. We have an excellent relationship with the orthopedists and our residents are sought after to assist in their cases.

Millcreek Community Hospital is a teaching hospital associated with the Lake Erie College of Osteopathic Medicine that offers 3 PMSR/RRA positions per year. The program offers a balance of hospital rounds, surgery, office, and wound clinic. Residents become proficient in forefoot and rearfoot procedures including diabetic limb salvage. Education is a premiere asset of the program with weekly didactic meetings, monthly journal clubs, and a resident run clinic. Residents are required to produce one publication-ready research study yearly. Residents also are required to obtain a Masters of Science Degree in Medical Education, that is paid for by the hospital. Residents experience extensive hands on clinical and surgical training that exceeds CPME requirements.

High powered training program with intense surgical volume, Legacy Health's PMSR/RRA allows residents hands-on experience in all aspects of foot & ankle surgery including internal & external fixation, reconstruction, trauma, sports injury, and complex diabetes limb salvage involving a multidisciplinary management approach. Podiatry residents are active members of the team on off-service clinical/surgical experiences. Didactic training and lab workshops supplement the residents' development through a sequential process over a 3-year comprehensive training program. High clinic volume and a variety of surgical cases will provide the experience and confidence to practice anywhere in the country as a valuable asset to their community. Offering the only podiatric residency program in the city, Legacy Health is based in Portland, Oregon. Located 1.5 hours from the Pacific coast and 1 hour from Mt. Hood, Portland is known for its parks, bridges and bicycle paths, as well as for its eco-friendliness, microbreweries, food trucks and coffeehouses.

**PROGRAM OVERVIEW**

This is a comprehensive three year program in a major teaching hospital. There are multiple residency programs in other specialties such as Internal Medicine, Orthopaedics, Vascular Surgery, Plastic Surgery, General Surgery and Radiology.

Having multiple residency programs enhances the educational experience of all the residency programs. .

Research opportunities are available.

The program is integrated with the Orthopaedic Surgery residency program where residents will be attending grand rounds and lectures together,

There is much to learn for the motivated resident.

Well diversified PMSR/RRA Program in the heart of Queens, NY. Forest Hills Hospital is a member of Northwell Health System, the third largest health care delivery systems in the United States. The health care system has extensive lecture series, research opportunities, and a new Medical School at Hofstra University. Residents will have full access to all of the educational benefits of the health system.

The Program offers extensive training in Forefoot/Rearfoot surgery, Wound Care, Internal Medicine, Emergency Medicine, and Infectious Disease. The Program is affiliated with Surgery Centers and 4 Northwell Health System Hospitals and Nassau University Medical Center, a level one Trauma Center. The Program Director has been actively involved in residency training for the past 22 years. Residents meet daily with Program Director and attendings to discuss cases.

This PMSR program provides a comprehensive surgical education through a positive learning environment where interaction with podiatric and orthopedic faculty is highly encouraged. The program is well-rounded with an emphasis on wound care, limb salvage and orthopaedic trauma. Residents can expect to perform a high number of surgical procedures. The resident has the opportunity to learn from over 20 podiatric surgeons and our tremendous relationship with orthopedics provides the ability to work with multiple orthopedic surgeons on a daily basis. A high emphasis is placed on didactic activities, the resident can expect to meet weekly in radiology conference, grand rounds, journal clubs, and pathology lab. Long Beach Memorial Medical Center is affiliated with the University of California Irvine

LUMC provides excellent clinical & surgical experience for a PMSR/RRA 36 month program for 3 residents. Podiatry & Orthopedic surgeons perform a high volume of forefoot and rearfoot reconstructive foot and ankle surgery. Our residents work with internationally known orthopedic and podiatric surgeons. Our program provides exceptional pediatric training with Dr. Edwin Harris with additional exposure with the Ortho Pediatric service. Our residents training model for the PMSR/RRA is a graduated tiered system. Loyola is a level 1 trauma center with our resident experiences with acute trauma throughout all training years and with ED call. Our program is designed to supplement your didactic knowledge with clinical experiences. The Loyola Podiatry and Orthopedic clinics and rotations as well as Hines with Podiatry clinics, focus on all aspects of Pathology of the lower extremity. Our surgical subspecialties include General Surgery, Vascular, and Foot & Ankle Orthopedic service. Our additional medical subspecialties include Wound clinic, Dermatology and Endocrinology.

Our well-rounded program is unique as the 1st year resident serves as General Surgery Interns. Podiatric residents receive an equitable training experience as to allopathic and osteopathic residents. 1-month rotations consist of Plastic, Vascular, Trauma, Burn, General Surgery, SICU, Hand, IM, ID, Pod, and night call. Few podiatrists get the opportunity to work at a Level I Trauma Center and the Arizona Burn Center. Junior and Senior residents circulate through Podiatric and Orthopedic rotations as well as working with well-known community podiatrists. A developed research curriculum is set during the 2nd year of training to allow for completion of research or publications. An extensive didactic curriculum will fully prepare future graduating residents for both medical and surgical board certification. Residency candidates are judged based on academic background and interview performance.

The hospital is designated as a PMSR / RRA Cert residency by the Council on Podiatric Medical Education. The residency rotations encompass a wide range of general medical and surgical learning experiences in a friendly and supportive medical educational environment. It also provides 14 different medical specialty programs in addition to medical student and intern programs in this highly regarded and nationally respected Osteopathic educational institution. Residents receive a competitive salary and benefit package. Experience and training is gained from a wide range of general and surgical rotations, in addition to ongoing podiatric surgical experience at McLaren-Oakland (formerly POH), Doctors Hospital of Michigan, Crittenton Hospital, Clarkston Surgical Center and St. Joseph Mercy-Oakland Hospital, Unasource Surgery Center and Waterford Surgery Center. The program provides a busy Hospital Foot Clinic both on and off campus, with wound care and limb salvage opportunities, and extensive exposure to podiatric office learning experiences.

Academic and clinically intense program based in Washington DC at MedStar Washington Hospital Center and MedStar Georgetown University Hospital. This program is a high volume inpatient and outpatient clinical care and surgical experience. The resident is exposed to patients with multi-system disease and co-morbidities. The graduates of this program are prepared to practice in a competitive environment at a high level and in diverse practice settings. The residency experience is enhanced by the access of MedStar Health which operates 10 hospitals in the metropolitan area and provides ample support for a well rounded educational experience. The team approach and multidisciplinary interaction are part of every rotation.

All residents are trained according to the CPME guidelines. There are 20 + podiatrists on staff that interact with the residents. There is a good flow of surgery patients both on an inpatient and outpatient setting. All medical disciplines are available in the hospital district. There are 4 hospitals within the program, three outpatient surgical centers and an outpatient podiatry clinic. The program is approved as a PMSR/RRA with two approved spots by CPME and both are funded. A clerkship is available to all schools. Applicants are encouraged to visit or call the program at 954-966-4500 x1304 or email [podiatry@mhs.net](mailto:podiatry@mhs.net) prior to visiting.

The strongest feature of our program is the hands-on approach that is introduced from the first day of arrival. This residency is an integral part of a teaching hospital affiliated with the Warren Alpert Medical School at Brown University. All rotations are geared to teaching through that hands-on approach. The podiatric clinical experience is invaluable with outpatient office rotations. Here you learn to work up a spectrum of pathologies and follow patients throughout their entire treatment course. In addition, they offer a real look into everyday podiatric practice. The surgical exposure is also done through a hands-on approach from day one. The surgical cases FAR exceed all requirements in each of the surgical categories. If you are a hard-working and self-motivated individual who comes prepared every day, you will excel here. Although the work is substantial, we also expect you to have fun and enjoy the experience. Salaries are expected to increase yearly.

Mercy is a CPME approved PMSR-RRA program located in the rapidly growing South Loop district in the beautiful City of Chicago. Our residents perform a large volume of surgery including ankle and reconstructive rearfoot surgery at the hospital and at multiple surgery centers. We also have multiple podiatric and wound care clinics that allow our residents proficiency in general podiatric medicine. Candidate visitation to our program is strongly encouraged, and can be arranged by calling Sabina McCray at 312-567-2167 or by email [sabina.mccray@mercy-chicago.org](mailto:sabina.mccray@mercy-chicago.org). Granted interviews will be held on the first Wednesday afternoon following CRIPS at Mercy Hospital Medical Center.

**PROGRAM OVERVIEW**

Our mission is to produce a well-rounded podiatric physician and surgeon who will work effectively as a member of an interdisciplinary team, will share their knowledge both within and without the podiatric profession, and will elevate the status of the specialty.

Our program is based at a Level 1 trauma center with air ambulance. Residents must balance surgical cases with outpatient and wound care clinic commitments, as well as didactic activities, skills labs, and research.

**PROGRAM OVERVIEW**

Metrowest has been approved as a PMSR- rearfoot certified program. The Podiatric Residency Program has been in existence for over 15 years. All residents participate in a vast number of non-podiatric rotations. The residents are exposed to a large amount of trauma and surgery during the core rotations of ED, Podiatry/Orthopedics. Each year residents participate in the Baja project, a medical mission in Honduras. Residents are exposed to many rearfoot surgeries including open ankle fractures, calcaneal fractures, clubfoot reconstruction, flatfoot reconstruction, etc. This program is well balanced surgically as well as clinically. MetroWest Medical Center currently requires a \$25 application fee. An application is not considered complete until the fee is received which is non-refundable. Checks or money orders are acceptable made out to "Residency Fund-MWMC".

**PROGRAM OVERVIEW**

The Kern Residency at Michigan Surgical Hospital (formerly Kern Hospital) has offered podiatric residency training programs since 1956. Our comprehensive program ties together primary care and surgery of the foot and ankle to create a well balanced learning experience. The strongest feature of this program is the clinical experience provided at our clinic with emphasis on diabetes, PAD, forefoot, rearfoot and ankle surgery. Residents will exceed minimal surgical volume and diversity. We provide a full schedule consisting of weekly PRESENT lectures, McGlamry's review, clinical case review, supplemental lectures, workshops and journal club. The residents receive a competitive salary and benefits packages in the state of Michigan. A one-month clerkship program is also available. Visiting the program is strongly encouraged but not required. Please visit our website for further information. We look forward to receiving your application. No Fellowships are offered.

**PROGRAM OVERVIEW**

Morristown Medical Center is the cornerstone of the Atlantic Health System. AHS includes 4 main hospitals, and 1 non system hospital as well as 3 surgery centers. Morristown Medical Center and its affiliates are located in historic suburban settings. This program does not accept candidates who have previously completed a residency program. Program emphasizes forefoot, rearfoot, and ankle surgery, wound care, and trauma. This program has a large volume of surgical cases as well as a large volume of inpatients. Residents routinely graduate with more than 1200 procedures. The application fee is utilized to offset expenses incurred in the central interview process. An externship at the Hospital is highly recommended. If an externship is not feasible, then a visit is very strongly recommended.

**PROGRAM OVERVIEW**

Mount Auburn Hospital, a teaching hospital of Harvard Medical School, is a 3 yr high-volume, well-rounded program with an emphasis in surgery, academia, & research. Residents gain extensive training in ankle, hindfoot & forefoot surgery, reconstructive & deformity correction, trauma, arthroscopy, joint replacement, sports medicine & advanced wound care. There are no competing orthopedic or plastic surgery residencies with parity on off-service rotations. Residents follow pre- & post-operative cases & develop proficient clinical and billing skills in both hospital & private office settings. National conferences, AO and arthroscopic certification are provided. Residents must complete at least one research project with advanced support from podiatric attendings with MPH degrees from the Harvard School of Public Health (no previous research training needed). There are numerous conferences, journal clubs, workshops and lectures. This program is best suited for motivated and dedicated physicians who are ready to commit towards a three year path of excellence.

**PROGRAM OVERVIEW**

Unique opportunity to train at one of the largest teaching hospital systems in the country. PMSR + CERT program with 3 entry level positions approved. This is a well-rounded four year surgical program in a large 1300 bed facility. Total 31 residency and fellowship programs. Residents will be thoroughly trained in all facets of podiatric medicine and surgery including diabetic wound care, forefoot and rearfoot and ankle reconstructive surgery, trauma, complex ilizarov technique, and limb salvage. The hospital has created an on-site podiatry faculty practice giving the podiatry resident the opportunity to comprehensively treat and follow their surgical and non-surgical patients. Recent additions to our training resources include a Wound Care Center, Orthopedic and Endocrinology rotations. Outside private office rotations available as well. Research participation is mandatory for all residents. We welcome applicants from all schools. Please be aware the program is 4 years in length.

Mt. Sinai Hospital is an inner-city level one trauma center. The residents will see foot & ankle trauma rarely seen in the literature. Will see severe diabetic foot infections with all levels of amputation. Abundant elective forefoot and rearfoot surgery. Encourage candidates from all schools to apply. The director's goal is 'c' cases from day one; you don't learn surgery holding retractors. This program is not intended for the student who wants a "country-club" residency. However, upon completion of this program, you will be well-versed in all phases of podiatry, and nothing will surprise you in private practice.

**PROGRAM OVERVIEW**

The PMSR program opened with our first PGY-1 and PGY-2 residents in the 2017/8 year. We will have one entry level position available for the 2018 match. The program offers an excellent well-rounded experience with strong training in surgical, medical and clinical skills. The residents will be managing patients in the inpatient and outpatient setting through all phases of surgery including follow-up care. Residents will have a didactic schedule, grand rounds, journal club, online lecture series, workshops and the opportunity to attend conferences. Clerkships and/or program visits are highly recommended.

**PROGRAM OVERVIEW**

The program is an intensive four-year program, devoted to all aspects of Foot and Ankle Surgery. This includes trauma, reconstructive, arthroscopy and endoscopic surgery of the rearfoot and ankle. There is extensive training in external and internal fixation. The first year emphasizes medical management on in-patients. Students ask why we have four years. We have added a first year that emphasizes medicine and medical management of in-patients. Besides the addition of the first year the fourth year is devoted to supervision, teaching and research. The fourth year is not added time to get case numbers--- all residents have their surgical and medical numbers after the 2nd year! We invite any candidate to view resident logs when they visit the program. This program is long hours and hard work--if this scares you please do not apply. The program has a full time residency director, and associate director. There is also 4 half time podiatry faculty as well as 80 voluntary podiatry staff. There is weekly formal lectures, journal club as well as teaching rounds on all in-patients.

**PROGRAM OVERVIEW**

This program is located in the heart of Brooklyn, New York. We are a small hospital, and since Podiatry is the only residency, the resident will experience a one-on-one with all medical and podiatric attendings. The podiatric attendings are experienced, Board Certified podiatrists. The operating room is equipped with all of the latest instrumentation, allowing the podiatric staff to perform state of the art surgeries.

NCMC offers a PMSR (with added credential) program with emphasis on podiatric surgery, reconstructive surgery, pediatrics, clubfoot, and wound care. We have a highly skilled and diverse staff of DPM's as well as foot and ankle orthopedists. We are fortunate to work in many facilities throughout the Northern Colorado front range. Residents are exposed to a wide range of forefoot, rearfoot and ankle surgical procedures. Didactic activities including journal club, residents lectures, workshops, and skills courses add to the resident's educational experience. Final applicants must submit to drug screening and a complete background check as required by Banner Health.

**Deadline:** 11/8/2017**Payable To:** Western Reserve Health Education**Other Applicant Requirements:** Minimum GPA waived pending externship.**AVAILABLE RESOURCES****Sample Contract:** At CRIP**Benefit Package:** Internet Site**Curriculum:** Internet Site**PROGRAM OVERVIEW**

Excellent surgical training with high volume (approximately 750 cases) and high quality procedures (scopes, ex fix, TAR, Charcot recon, etc). Great relationship with orthopedic surgeons. Primary attendings include fellowship-trained foot and ankle surgeons (MD and DPMs). Daily morning didactics including book club and radiology conference. Weekly academics including occasional workshops and wet labs. Monthly journal club and case presentations. High emphasis on research. Good exposure to wound care as we are affiliated with three hospital-based wound healing centers. We are looking for hard-working team players that blend well. CRIP interviews are social.

**PROGRAM OVERVIEW**

Northwest Medical Center is a 36 month, PMSR/RRA program. There is a strong emphasis on elective forefoot, hindfoot, and ankle surgery, limb salvage and wound care, lower extremity trauma, and clinical patient management. Residents are expected to have excellent communication skills, be self-driven, self-motivated, and possess a strong desire to learn. Two residents accepted per year, open to all colleges of podiatric medicine. Recent graduates with approximately 2200 procedures. Visits to the hospital are highly recommended. Please note that visitation by Barry Students is mandatory for application consideration. Please contact the chief resident, Dr. Sohan Patel, at 954-803-7315 (call or text) with any questions or to schedule a visit.

The program is a PMSR/RRA emphasizing a well-rounded surgical experience including trauma, foot and ankle reconstruction, limb salvage, and elective forefoot surgery. We offer a diverse education experience with clinical rotations in anesthesia, orthopedics, pediatric orthopedics, family medicine, emergency medicine, infectious disease, vascular surgery, HBO/wound care, and more. Coverage extends to all Norton Healthcare facilities & affiliated surgery centers. Podiatry takes primary call at 4 Norton hospitals for all foot and ankle conditions including complex trauma. With a faculty of podiatric and non-podiatric physicians participating in the Program, our residents have ample opportunity to hone their surgical & medical skills. Clerkship with our program is MANDATORY to be considered for a residency position. This process allows the faculty to better evaluate each candidate instead of a 1-hour interview, and gives the student an opportunity to evaluate our program to assure this is a right fit. Free Room & Board is available for Externs.

**PROGRAM OVERVIEW**

Training includes extensive exposure to forefoot and rearfoot surgery, orthopedic trauma with an emphasis on foot and ankle, wound care and pediatrics in both an urban and sub-urban setting. Patient demographics are diverse and include patients with medicaid, medicare and private insurance. Along with clinical and surgical training, practice management and "real life" patient care is emphasized. Admission to the program is not influenced by race,color,sex,religion,creed,national origin,age,or handicap.

This program has the added Credential in Reconstructive Rearfoot and Ankle Surgery.

The Podiatry residency program is well integrated into a teaching hospital. The goal of our program is to graduate residents with an excellent medical and surgical background to become successful in private practice. This is accomplished by block rotations, weekly didactic lectures, journal club and labs. There is a large inpatient/ outpatient volume, affording residents excellent exposure to treatment of diabetic infections and reconstructive foot and ankle surgery.

The PGY-3 level of the PMSR/RRA program provides emphasis in advanced reconstructive surgery in foot and ankle. The PGY-3 level of the PMSR program provides advanced training in plastic surgery and diabetic wound care/surgery.

PMSR with RRA approved program that devotes one full year to orthopedic trauma . Level-one trauma center gives our residents exposure to a wide variety of pathology. Each resident scrubs as primary assistant in more than 500 surgical procedures each year. NYU acquired Lutheran Medical Center last year. Now Podiatry residents scrub cases at NYU Tisch Hospital, Hospital of Joint Disease, and several NYU surgical Centers starting in their first year.

**PROGRAM OVERVIEW**

Our 36 month program sponsors 6 residents; two per year for three years. During the first year, residents train with attending podiatry and medical physicians who provide education, supervision and performance assessment. While rotating in other specialty services, the residents make frequent inpatient rounds with the healthcare team, attend that service's educational conferences, supplemented by conferences held by the Division of Podiatry. In year two of training, the residents become actively involved in podiatric surgery, focusing on the performance of foot surgery and exposure to reconstructive surgery of the foot and ankle. Emphasis during year three of training is placed on reconstructive foot and ankle surgery, inclusive of surgical management of traumatology. By completion of the podiatric surgical training experience, the resident will be competent in the performance of all types of foot surgery as well as reconstructive foot and ankle surgery inclusive of major tarsal and ankle arthrodeses, osteotomies, fracture repair, and soft tissue repair.

Ochsner Medical Center is an Independent Academic Medical Center with multiple training programs across many core and specialty programs. The Podiatric clerkship links to Ochsner's Podiatric accredited Podiatry Residency program. The programs emphasize podiatric surgical competencies, but also provides experience in wound care and limb salvage . Ochsner accepts residents through the designated match process and clerks from accredited Podiatric Medical School. An approved affiliation agreement is required prior to the initiation of any clerkship rotations.

**Sample Contract:** At CRIP

**Benefit Package:** Contact Program

**Curriculum:** At CRIP

**PROGRAM OVERVIEW**

This PMSR with added RRA certification is funded through OSF Saint Anthony Medical Center, a Level I Trauma Center, and affiliated with a multispecialty orthopedic practice. The resident is expected to far surpass the surgical volume requirements with heavy exposure to rearfoot and ankle reconstruction, revision surgery, trauma, and elective cases. The resident will also have extensive exposure to limb preservation, pediatrics, general orthopedics, rheumatology, and orthopedic trauma. In short, this demanding program is designed to produce confident and well prepared podiatric physicians able to excel in a number of settings. Interested students who visit or extern with the program and perform well will be given greater consideration during match.

Phoenixville Hospital, which is affiliated with Tower Health, is located in a beautiful part of Pennsylvania and within a 20 mile radius of all our PA Ortho Center office locations and other affiliated hospitals. We have a dedicated call room at Phoenixville hospital. Core attending faculty takes pride in teaching and friendly staff at the affiliated hospitals. We have one Foot and Ankle Fellow, of Dr. Miller's Pennsylvania Intensive Lower Extremity Fellowship, per year also present to provide training to residents. This is a well-rounded program with varied learning opportunities.

**PROGRAM OVERVIEW**

The residency rotations encompass a wide range of general medical and surgical learning experiences that exceed CPME requirements in a friendly and supportive educational environment which provides over 14 different residency and specialty programs in this widely respected educational institution. This Top 100 rated hospital provides a well-rounded education and emphasis on research with Dr. Guy Pupp as Director of Scholarly Activity and Dr. Victor Nwosu as Director of Simulation and Skills. The residents receive a competitive salary and benefit package, an updated call room, new library and Michigan State University resource access. We offer funding to present at conferences and free annual SEMCME research and chief resident workshops. We have opportunities for medical mission experience. Our two wound clinics and three Surgical Centers provide additional educational training experiences. Podiatry office experiences are provided, and a resident clinic is in the planning. A one month Externship/Clerkship program is available to students.

**PROGRAM OVERVIEW**

Excellent opportunity for a high energy resident with a thirst for knowledge. The Reading Hospital provides a wealth of learning resources from our large medical staff, trauma center, and Graduate Medical Education Department. The hospital touts a very high volume ED, OR, wound care center, out-patient clinic, and in-patient teaching opportunities. The learning experience will nurture and develop a well-rounded podiatric physician and surgeon who will practice with the utmost ethical standards. Multi-discipline residency programs will provide the educational opportunity for podiatry to integrate as part of the health care team. A very exciting podiatric residency opportunity!

Rochester General Hospital, located in Rochester NY, has provisional accreditation for a 36 month podiatric residency program that emphasizes on all aspects of podiatric care from basic clinical experiences to advanced reconstructive procedures. This program began in the 2017-2018 academic year, with PMSR/RRA certification. The program is designed to start our first year similar to a typical internship year, focusing on a comprehensive education while also starting surgical integration that continues to build throughout one's residency experience. Residents are provided with opportunities to learn from top-notch medical and surgical specialists from multiple health care facilities. Learning is hands-on and interactive; learning surgery through doing, not watching. In addition to the rich 'hands on' procedural facets of our program, monthly journal club meetings, presentations, and ongoing research opportunities play an important role in keeping our residents current with advances made in the field of podiatric medicine and surgery.

**PROGRAM OVERVIEW**

RWMC offers a highly regarded, comprehensive training program granted full approval by the CPME as a PMSR/RRA residency with three positions in each year of training. Multiple hospitals and training sites are utilized offering daily podiatric surgery, and strong medical subspecialty rotations. The program provides full time coverage of a neighboring VA. The program includes a weekly podiatric clinic and a large podiatric faculty performing diverse surgical procedures. Externship opportunities are available and encouraged and student visitors are welcome.

The Department of Podiatry at Rush University Medical Center is committed to providing the highest level of care for foot and ankle problems. Our comprehensive program ties together primary care and surgery of the foot and ankle to create a well-balanced learning experience. The three-year podiatric surgical residency is based out of Rush Oak Park Hospital in Oak Park, Illinois. There are three positions per year. The program encompasses all aspects of podiatric medicine and surgery, including forefoot surgery, rearfoot/ankle, reconstructive surgery, trauma surgery, fracture/infection management, and diabetic limb salvage. Residents spend time in private offices and perform daily hospital rounds, which provide extensive perioperative management of patients. This program prepares podiatric physicians to integrate into any types of future practice setting. Faculty includes and extensive array of Podiatrists and Foot and Ankle Orthopedists.

St. Mary's Health Care Services has a PMSR/RRA. This is a highly concentrated surgical residency with very complete medical rotations. There is currently two entry-level positions available. This is a three-year commitment. This is a level two trauma center with a large volume of surgery. Residents are expected to be very active, hard-working, and should be self-motivated.

Externship recommended. Visiting students: Meals provided and housing within 1 block walking distance for \$350-400/month.

The Podiatric Medical and Surgical 36-Month Residency at Sanford Health is a comprehensive, three-year program that leads to certification in forefoot, rearfoot, ankle, and reconstructive surgery. The first year of resident training is similar to an internship year, where the resident will complete most of his or her medicine based rotations. During the second and third years of training, the resident will receive mainly podiatric clinical and surgical training.

The goal of the Sanford Health Podiatric Medicine and Surgery Residency is to train podiatric residents, who, after three years of training at Sanford Medical Center, will have the skills and knowledge to treat a variety of podiatric conditions in the clinical setting as well as the surgical setting. The resident should exhibit integrity, sensitivity, self-motivation, and treat all patients in an ethical manner.

**PROGRAM OVERVIEW**

The Scott & White Health Care System/Texas A&M University, Podiatric Medicine & Surgery Residency program is located in central Texas (Temple) and has 12 hospitals and 15 supporting major regional clinics. The Scott & White ER in Temple is a level one trauma center. All didactic, clinical and surgical training is obtained at the main Scott & White hospital/clinic, which has 550 physicians, as well as the Scott & White Children's Hospital and the Temple VA Hospital/Clinic. There is also a rotation to an active military base, Fort Hood (Killeen, Texas). Some travel is involved to regional clinics/hospital/surgery centers in central Texas.

**PROGRAM OVERVIEW**

We have 4 1st, 4 2nd, & 4 3rd year positions. One 3rd year will spend the 3rd year in San Diego, splitting time between Scripps Mercy San Diego, Kaiser San Diego, Scripps Green & Sharp Rees Stealy. 2 residents will spend their 3rd year at Kaiser Program in Sacramento (21 podiatrists). One 3rd yr resident will spend their 3rd year at Kaiser Fontana/Ontario (9 podiatrists in Riverside Co So Calif). We have rotations at Kaiser San Diego (11 podiatrists), Sharp Rees Stealy (7 podiatrists) & Scripps Clinic/Scripps Green Hospital (5 podiatrists), Navy (2 podiatrists) besides Scripps Mercy during the 2nd year. There is a strong emphasis on biomechanics as well as surgery and trauma. There are excellent outside rotations as well. The first 2 years are the same. A separate selection category is set up for the 3 different 3rd year spots. (San Diego, Sacramento, Fontana/Ontario 3rd year position). The programs will be matched separately by CASPR. You will be able to select each program separately. A single application process and fee is available for each or all 3 programs.

**PROGRAM OVERVIEW**

This program is based at Silver Lake Medical Center (SLMC) and has strong affiliations with Kaiser Fontana and DVA Loma Linda. The first year is spent covering all podiatric and orthopedic surgery at SLMC along with rotations at other area centers. The second and third year is spent at Kaiser Fontana, DVA Loma Linda & other participating institutions. Kaiser Fontana is home to one of the largest podiatry departments in Southern California and our residents are one of the primary podiatry residents to rotate there. DVA Loma Linda provides our residents with great podiatry clinic experience. Surgical numbers are impressive and far exceed what is required in all categories. The rotations at these facilities as well as local surgical centers will provide our residents with a diverse experience enabling them to graduate well prepared to take board exams and practice in any setting.

There are five 36 month slots. Residents will have opportunity to work with more than 50 podiatric attendings, performing "hands on" surgery at 9 surgery centers, 8 hospitals, and clinic. Steady inpatient load leads to a well rounded, practical education. Twice weekly didactic sessions and opportunity for research, publishing, and lecturing complete the experience.

## PROGRAM OVERVIEW

We have both a PMSR and PMSR/RRA. St. Barnabas Hospital is a regional trauma and stroke center. It repeatedly affords residents unparalleled experience with orthopedic injuries, diabetic foot infection cases, wound care and clinics. It offers unique experience with orthopedics where house-staff essentially act as orthopedic residents. Residents repeatedly scrub total joint replacement, arthroscopy as well as poly-trauma injuries of long bones. The multispecialty approach taught at the hospital is also a great experience where residents work closely with infectious disease, vascular, internal medicine and general surgery teams. Further, residents learn excellent medical management skills as they manage orthopedic and podiatry patients under their service in-house. The podiatry clinics see approximately 10,000 patients per year. The emergency room represents about 2,000 visits per year. In short, this is a program where residents learn by doing.

**PROGRAM OVERVIEW**

The program has been fully accredited by CPME as a PMSR/RRA through 2019. There are rotations at Newark Beth Israel Hospital and multiple surgical centers. The resident will gain a broad experience in lower extremity trauma, wound care, inpatient management, and forefoot and reconstructive rearfoot and ankle surgery. Our residents work closely with the orthopedic surgeons in the hospital.

This residency program is a highly powered three year surgical residency designed to train residents to become fully competent in foot and reconstructive rearfoot/ankle surgery. Residents will exceed minimal surgical volumes and diversity three fold. The podiatric surgical department has a busy in-patient service in which the residents are actively involved in patient management. The hospital also provides podiatric medical and surgical experiences through its Foot and Ankle Surgical Clinic. Didactic activities consist of daily medical imaging conferences, weekly didactics, monthly clinical conference, monthly journal club, cadaveric surgery, and skill labs. Past residents have achieved a 100% pass rate on the ABPS Board Qualified Exam in Foot and RRA. Please visit our website for more information ([www.stjohn.org/stjohnhospital/cme-residency](http://www.stjohn.org/stjohnhospital/cme-residency))

This podiatric residency (PMSR/RRA) is a well integrated program with an emphasis on podiatric surgery, diabetic footcare, and clinic. Residents follow inpatients at 2 hospitals with a combined total of 586 beds, and over 60 attendings. With a large surgical base, residents are expected to take on a multitude of responsibilities furthering their podiatric careers. For more information please, visit the hospital website. Program visitation and or student externship is strongly encouraged.

St. John's Episcopal Hospital is a major teaching community hospital located in Far Rockaway, NY. The program is under the leadership of Drs. Arnold Hertz and David Gordon. In addition, our residents have the opportunity to scrub with and learn from 3 fellowship-trained Foot and Ankle Orthopedic Surgeons. During the second and third year of training there is a 2 month rotation with Aprajita Nakra DPM, faculty of the Podiatry Institute, with one on one surgical experience in advance rearfoot and reconstructive foot and ankle surgery.

St. John's also has a modern Wound Care Center with Hyperbaric Oxygen Therapy. Additionally, there is a Wound Care Fellowship. As we feel that an inter-disciplinary approach is an integral part of making our residents more well-rounded professionals, we've improved our sub-specialty rotations. We've also improved our education and lecture series, as we feel this is an important foundation for our residents' training.

St. Joseph Medical Center PMSR/RRA residency program offers diverse training experiences in podiatric medicine and surgery including forefoot surgery, rearfoot surgery, pediatrics and trauma. With over 20 Podiatrists, you will be exposed to various procedures and fixation techniques (which will require traveling in the greater Houston area). You will spend time in the private offices to experience pre and post op management, consultations, in-office procedures and practice management. Many rotations at St. Joseph will be spent alongside residents and students from UTMB Galveston, UT Houston and Houston Methodist Hospital. We have a very busy Wound Care Center on site with Hyperbaric Chambers which will enrich your training experience. Surgical workshops will be performed at St. Joseph in our cadaver lab complete with imaging. Residents completing this program will be well prepared to successfully pass their board examinations and obtain excellent job opportunities.

**PROGRAM OVERVIEW**

At St. Mary Mercy Hospital, the Podiatric Residency Program (PMSR/RRA) is well integrated into the hospital system. As of 2017 the program has matured its 4th set of podiatric residents. In 2017-2018 the hospital supports Internal Medicine, Family Practice, Emergency Medicine, Podiatry, Transitional, and Psychiatry residency programs. Podiatric surgery is the first and only surgical training program at this facility. With a large volume of podiatric surgery, orthopedic surgery, vascular surgery, and general surgery the resident will be consistently exposed to surgical volume. On site wound care clinic and podiatric clinics are noted as well as abundant private practice rotations. Program visitation and / or rotation is strongly recommended. You can contact the program directly with questions.

**PROGRAM OVERVIEW**

We offer a well rounded surgical program. Excellent outside rotations with the general medical and surgical staff. Wound Center is complete with minor OR and Hyperbaric Oxygen. Podiatry takes ER call and the residents will get experience handling forefoot, rearfoot and ankle trauma both in the ER and in the OR. Residents will gain experience in Charcot reconstruction with the use of external fixation. We have already performed several total ankle replacements at our facility. Basic and advanced reconstructive foot and ankle courses including internal and external fixation will be given to the residents.

The Podiatric Medicine & Surgery Residency with the added credential in Reconstructive Rearfoot/Ankle Surgery Program at St Vincent Charity Medical Center inspires passion and purpose for the podiatric surgical practice and compassion for the patient with diseases, disorders and deformities of the foot. Our commitment and dedication to developing the hearts, minds, and skills of our podiatric surgical residents remain steadfast. Our graduates proudly earn the right and respect as Clinicians, Surgeons, Educators and Humanitarians. At St Vincent Charity Medical Center, we inspire excellence by example so that our future generations of highly skilled podiatric surgeons continue our long tradition of quality patient care.

Well-rounded program. Excellent salary and benefits. This is a 3/3/3 structure with a total of 9 residents and PMSR/RRA certification. St Vincent Hospital is a level 1 trauma center and is a member of Ascension Health which is the largest not-for-profit and Catholic Health Care System. High volume of inpatient care including diabetic foot infections and limb salvage procedures. This is a hospital based and focused program with the opportunity to work at over 15 local surgery centers and hospitals. Residents take majority of call in first year, with some second year call and optional third year call. Work closely with the other medical specialties at the hospital. Extensive exposure to forefoot, rearfoot reconstructive, ankle and wound care. Research opportunities available and required with at least one publishable paper or poster presentation or lecture at national or international conference required before end of training.

SVH PMSR/RRA-Cert program offers a well-rounded environment combining numerous academic, surgical and clinical experiences that help develop confident and well trained Podiatrists. Surgical cases at SVH are single scrubbed by residents. All numbers are usually reached by the end of 2nd year for FF/RF. Residents are encouraged to scrub in on any uncovered cases at SVH including plastics, vascular and orthopedic cases. No Orthopedic residents are present at this hospital. Residents work exclusively with three F&A Orthopedic Surgeons and multiple Podiatry attendings. Moonlighting options are available after completion of vascular rotation. Besides private practice clinical experiences, SVH has a state of the art wound care center, which includes HBO treatment options. Board Review, Attending Lectures, Journal Club and M&M Conferences are held monthly. Worcester is an approximately 45 minute drive from Boston, Providence, RI, Hartford, CT, and NH. Externships/visits are strongly encouraged. Contact the Residency Coordinator at 508-363-6350 to set up a visit or ask questions.

The St. Vincent's Medical Center program is fully supported by a state-of-the-art three hospital network, three outpatient surgery centers, HBO-equipped wound care centers, and multiple outpatient clinics providing ample exposure to a wide variety of foot and ankle pathology. Surgical training runs the gamut from full-scope limb salvage with flaps and external fixation to elective reconstruction and sports medicine. There are no orthopedic residents/fellows to compete with here. Faculty is comprised of physician-educators entirely focused on teaching and optimizing residents outcomes. Residents also have the opportunity to join limb deformity correction mission trips to Central America in tandem with Operation Footprint. This program is most ideal for a self-motivated TEAM player that wants to become a competent and confident foot and ankle surgeon.

The St Elizabeth's Podiatric Medicine and Surgical Residency Program is a 3 year program (PMR/RRA). The residency is approved for a total of 6 residents, two in each year of training. The residency is designed with a rotational structure with an emphasis on resource based, competency driven, assessment validated training. The resident is provided with a greater responsibility in patient care and decision making as they progress throughout their training. These experiences coincide with didactic activities such as journal club, skills workshops, case review, and lectures. Research opportunities are readily available and are a requirement for graduation.

Due to a combination of community based and referral patients, the medical and surgical volume and diversity is exceptional. The residents are integrated into outpatient clinics which allow for involvement throughout a patient's medical or surgical management. The residents also obtain training experiences in foot and ankle surgery at affiliated hospitals and surgery centers.

**PROGRAM OVERVIEW**

The Podiatric Medicine and Surgery/RRA residency program began at Swedish Covenant Hospital (SCH) in 2012 and is fully accredited by the CPME of the APMA. Residents participate in clinical medical education concerned with the diagnosis, treatment and management of patients in both the inpatient and outpatient settings. Education will be provided through scheduled lectures, seminars, and conferences devoted to the integration of the basic sciences with the clinical treatment of patients. The educational model used for this Podiatric Medicine and Surgery/RRA residency program is resource based, qualification driven, and assessment validated. Our program offers three years of postgraduate training and currently takes 2 residents per academic year. While visitation or externship is preferred it is not required. For more information please contact the Residency Program Coordinator at [kjones@SwedishCovenant.org](mailto:kjones@SwedishCovenant.org).

**PROGRAM OVERVIEW**

Three-year program emphasizing reconstructive foot and ankle surgery, located at Swedish Medical Center in Seattle, WA. Well-rounded curriculum offered at large hospital base. Training at a level 1 trauma center. Supportive alumni provide a highly academic and research-oriented training experience. Program is a 3-year commitment as a PMSR/RRA. Graduates obtain rearfoot privileges. Program and research supported by the International Foot and Ankle Foundation (IFAF). Opportunity for international experience. Many of our graduating residents are leaders in the podiatric profession. Program has been training top level graduates for over 47 years. Graduates have become leaders in the profession including ACFAS Presidents, Residency Directors, ACFAS Scientific Chairs, ACFAS Test Chairman and Dean of College.

**AVAILABLE RESOURCES****Sample Contract:** Contact Program      **Benefit Package:** Contact Program      **Curriculum:** Contact Program**PROGRAM OVERVIEW**

Temple University Hospital is a Level-1 Trauma center and our residency program is well-integrated into the hospital and with the 30+ other residency/fellowship programs offered by our GME office. This is a competitive and academically strong residency program. Our clerkship is strongly recommended for interested applicants.

We take a lot of pride in providing our residents with the full scope of foot and ankle surgery, and our residents graduate with the confidence to handle any pathology that presents to their offices. A lot of this comes from working multiple emergency rooms in North Philadelphia and working closely with our surgical trauma service, but also includes elective forefoot and rearfoot reconstructions. We also work closely with our Vascular Surgery Department through the Temple Limb Salvage Center with respect to diabetic limb preservation techniques. Additionally, we provide significant opportunities for research and teaching at TUSPM. Residents often graduate with multiple publications and have several recent national awards for science.

Well rounded PMSR/RRA Program Directed by Morteza Khaladj, DPM. Residents will rotate through Trinitas Regional Medical Center in Elizabeth NJ as well as cover surgical cases at other locations. Residents will get a well rounded training experience. Areas of focus include diabetic limb salvage, Trauma, and wound healing at The Center for Wound Healing & Hyperbaric Medicine at Trinitas Regional Medical Center. The Center ranks as one of the top centers for Wound Healing & Hyperbaric Medicines in the nation, with overall heal rates consistently above 90 percent. Our program takes all foot and ankle ER call. Trinitas Regional Medical Center is soon to become a Trauma II Center.

The First Nations Podiatric Residency Program is a collaborative effort of the Tuba City Regional Health Care Center in Tuba City, AZ and the Midwestern University School of Podiatric Medicine in Glendale, AZ. The Mission of the Program is to develop the leaders of Podiatric Medicine in rural and underserved communities, who will serve as superior foot and ankle surgeons, community advocates, and as advocates for the profession of Podiatry. The residents will be challenged by a strong, comprehensive, and multidisciplinary approach to resident education. Furthermore, they will be challenged by the variety of health care facilities and models, limited resources, remote locations, and a broad array of pathology, in the context of the culturally-rich environment of Native American Reservations throughout the United States.

**PROGRAM OVERVIEW**

The program is in entering its fifth year and already is getting attention all over for its robust training experiences and academic and practical rotations. Residents are exposed to multiple specialties and have hands on experience. Stimulating academic sessions are provided as well as exposure to limb salvage program at TMC Save a Limb Tucson program. Our residents interact daily with attending from different specialties of Medicine and Surgery and are expected to be knowledgeable and interactive. We are looking for excellence in learning experience and for potential leaders in our specialty.

Trinity Regional Medical Center Podiatric Surgical Residency emphasizes comprehensive patient care experience, from new patient encounter to discharge. Ongoing experience includes in-patient and out-patient surgical management, diabetic foot management, adult and pediatric reconstruction, infection management, ER trauma call and office-based foot and ankle care including extensive practice management. Residents are actively involved in all hospital departments. Residents can expect to be involved with 750 surgical procedures, perform over 400 history and physicals, be involved with 100 trauma cases, and manage over 1500 outpatient visits both for adult and pediatric patients EACH YEAR of the program. Evidence based learning is stressed throughout the residents training, providing a broad background in evidence based medicine.

One of the few Podiatric Residency programs in the country which is University based giving the residents an opportunity to interact with the residents from 53 other residency programs. The podiatric residents have the same rights and privileges granted to the other residents within the hospital. Approved by CPME as a Podiatric Medicine and Surgery Residency with Reconstructive Rearfoot/Ankle Surgery with a 3 year commitment. Students from all schools are considered equally. Tremendous opportunity for a resident as well as for our profession.

**PROGRAM OVERVIEW**

This 36 month program provides a comprehensive surgical education through a positive learning environment where interaction with podiatric and orthopedic faculty is highly encouraged. The program is well-rounded with an emphasis on complex rearfoot reconstructive surgery. Residents perform a high number of surgical procedures which far exceeds CPME requirements. The resident has the opportunity to learn from over 30 podiatric surgeons and our tremendous relationship with orthopedics provides the ability to work with multiple orthopedic surgeons on a daily basis. A high emphasis is placed on didactic activities; the resident can expect to meet 3 times weekly in radiology rounds, journal clubs, cadaver lab or lecture. The program is fully integrated into the world-renowned University of Pittsburgh Medical Center, universally recognized for its commitment to excellence in medicine; this provides an opportunity to work and learn in a university setting. Please refer to the program website for employment qualifications.

The Podiatry residency training program at UTHSCSA has been a fully integrated program within a state funded academic health science center for 44 years. We are a Division of the Department of Orthopaedics. Our faculty includes five full-time faculty and 18 adjunct clinical faculty. Primary locations for training are The University Health System (County Hospital), South Texas Veterans Health Care System, and private hospitals/surgery centers where our clinical faculty in private practice work. Training involves an extensive combination of inpatient and outpatient services with excellent surgical training in limb salvage, plastic surgery, trauma, podopediatrics and reconstructive rearfoot and ankle surgery. Our focus is to train podiatry medical physicians keeping in mind the mission of an academic health center, which is teaching, research, and service. Website [www.diabeticfoot.org](http://www.diabeticfoot.org) or contact Rosanna M. Bloom at 210-567-5174, bloom@uthscsa.edu.

**PROGRAM OVERVIEW**

This is a three year PMSR/RRA program.

This is a diverse program with surgical and clinical numbers approximately twice the CPME requirements. There is a wide variety of foot and ankle pathology, including diabetic limb salvage, elective reconstruction and trauma. The residents are fully integrated with allopathic residents. All post-operative University Hospital patients are followed in the state of the art podiatry clinic.

University Hospital is part of an Academic Health Science Center and the principle teaching hospital for the Rutgers New Jersey Medical School. Residents have access to the on campus library, skills labs, and lectures. Weekly academic sessions are held Wednesday mornings. Research opportunities are available.

**PROGRAM OVERVIEW**

The Residency Training Program at Wake Forest Baptist Health provides the recent graduate with the opportunity to gather extensive experience in the conditions associated with a general podiatric medical and surgical practice and to study advanced and related sciences essential for the practice of podiatric medicine and surgery.

The teaching program will attempt to demonstrate to the resident an effective method for improving community foot and ankle health and to better prepare the resident for his/her position in the total community healthcare structure.

This residency program is a three year commitment. The first year of training is spent within the Cook County Health System and focuses primarily on comprehensive podiatric medicine/surgery and general medicine. The following two years of training primarily consist of podiatric surgery/medicine at multiple affiliated institutions/facilities and in private practice settings. The program consists of multiple training institutions and resources that are available for various rotations and research. Due to the vast number of attendings at this program, the resident will have exposure to a diverse and wide variety of surgical techniques and practice management styles.

Program is approved PMSR/RRA.

Past graduates hold leadership roles in many state and national organizations. This creates a networking opportunity for post residency employment. We have alumni located throughout the entire USA and Puerto Rico. Many of the graduates are recruited by large podiatric, orthopedic, and multi-specialty groups. All interviews shall occur on the dates established by the national resident application matching service. Each candidate granted an interview will be interviewed individually (Could be done individually or in a group setting) on academic and social skills. Call-back interviews may occur and could be an individual or group setting. Each final candidate will be assessed and ranked by the individual interviewers and final rankings are established by group consensus. Curriculum is available to candidates upon request.

**PROGRAM OVERVIEW**

Westchester General Hospital is a 125-bed acute care hospital serving the Miami community since 1966. In 2006, the hospital expanded with state-of-the-art Surgical Department, ICU Unit, Emergency Room, and Med-Surg Unit. Training resources available include North Shore Hospital, outpatient ambulatory surgical centers, wound care centers, and private offices. This is a highly academic program with a great deal of responsibility placed upon the residents including an active ER and in-house patient management. Each resident is expected to be fully prepared academically & possess exceptional clinical & surgical knowledge in order to be provided with the opportunity to gain training in surgery of the foot and ankle. A wide array of weekly didactic & research training experiences are provided to enhance the residents' fundamental knowledge hence fully preparing them for private practice.

Applicants from Barry University in Florida may be interviewed locally. Other applicants will be interviewed at the program's assigned CRIP date.

This is a well balanced surgical program with emphasis on surgical skills, pre and post operative management. Wound care is offered when done through office rotations. Office and billing experience is handled through the clinic as well as podiatric private practices. Hospital-based clinic experience is done while working closely with the other medicine residents. The hospital is a modern facility with excellent resources. Rotations are designed to expose the resident to all of the necessary skills needed to function and be successful in private practice or group practice.

The Westside Regional Medical Center Residency is a 3-year high-volume PMSR-RRA program with an emphasis in surgery (joint replacement, external fixation, arthroscopy, trauma, tibial shaft/plafond, ankle, hindfoot and forefoot reconstruction), didactics, and research. Residents are responsible for taking all emergency room call for pathology below the tibial tuberosity at both Westside Regional Medical Center and Plantation General Hospital. Residents perform 1000+ surgical cases, and 2,000+ surgical procedures at 6 different locations along with 1500+ office encounters. There are numerous weekly academics, journal club, sawbones workshops, and cadaver labs. Upon graduation, residents average 2 manuscript publications in nationally recognized journals, and are prepared to enter competitive fellowships, large multispecialty/orthopedic groups, or private practice. The program accepts three residents per year and is best suited for highly motivated, hard working, independent physicians. For more information, please visit: <http://westsideregional.com/gme/podiatry/overview>.

**PROGRAM OVERVIEW**

The White Memorial Medical Center offers a PMSR/RRA residency. One position is offered each year through the CASPR match. The faculty includes hospital based physicians as well as full time practicing podiatrists, orthopedists, and medical sub-specialists. We offer an inner city patient population in an acute care hospital setting. The teaching program emphasizes surgical volume/diversity, foot and ankle trauma and quality medical rotations. White Memorial has been involved with graduate medical education since 1913. WMMC is an affiliate of Loma Linda University Medical School.

**PROGRAM OVERVIEW**

The following instructions are provided to assist all applicants in starting their military application process:  
 The WAMC PMSR/RRA is the ONLY Residency Program in the country which trains Military Officers who are ACTIVELY SERVING in the United States Armed Forces. Therefore, our program REQUIRES that an additional Military Medical Application be completed by ALL applicants, along with the CASPR/CRIP processes and procedures. Completion and approval of the Military Medical Application is mandatory before an applicant can be considered for Military Residency training. Subsequently, ALL applicants are also required to BEGIN (or) INITIATE the Military Medical Application process before being approved for a one month Clerkship/Externship at our facility. Please correspond with Ms. VanDyke at rose.m.vandyke.civ@mail.mil to obtain a program information PDF copy detailing the application process.

**PROGRAM OVERVIEW**

A comprehensive clinical and academic approach to all areas of Podiatric Medicine & Surgery. We have a varied & busy surgical schedule with hands on resident experience as a key component of our training program. We take the training of each & every one of our residents individually & cooperatively as the primary objective of the program. The residents are given opportunities to attend & receive advanced training, certification in workshops and seminars. The size & nature of the program itself supports & promotes a great amount of activity in both the academic & clinical aspects of the program. The surgical quantity & quality, the inpatient & outpatient clinical activity & the volume of cases in the ER all reflect this devotion to advancing & improving the type & level of education & clinical experiences. Our academic schedule consists of daily rounds and teaching rounds rotating on a weekly basis with our teaching faculty all involved to provide lectures, journal review, cadaver labs on site, radiology review & a variety of regularly scheduled workshops & guest lecturers.

**PROGRAM OVERVIEW**

Training consists of 3 years focused on medicine and surgery of the foot & ankle, augmented with rotations in other crucial disciplines to result in advanced comprehensive training for the Podiatric Surgeon. The program is headquartered at Yale – New Haven Hospital in affiliation with Yale University School of Medicine. VACT-West Haven is a primary affiliate. Training is augmented by 10 additional hospital & surgical center affiliates. The teaching faculty at the Yale program is a group dedicated to the advancement of the profession with a strong foundation in medical education. Faculty includes many nationally and internationally known podiatrists, orthopedists and surgeons. Utilizing tried and true traditional surgical training techniques, residents are guided through three years of progressively advanced training, leading to the development of confident, independent diagnosticians and surgeons. Graduates of the program are easily placed with podiatric and orthopedic groups, as well as academic facilities.
