Malpractice Insurance

Access TeleCare (ATC) provides malpractice coverage for all of our psychiatrists regardless of their commitment level (Full Time / Independent Contractor). The malpractice coverage is \$1,000,000 per incident and \$3,000,000 annual aggregate unless otherwise indicated by the state. We have a claims made policy retroactive to 2005, but in the event that tail coverage is needed, our physician services agreement language commits ATC to purchasing necessary coverage for each of our psychiatrists.

Minimum Commitment

The term of our physician service agreement is one year.
