

University of Rochester Medical Center

Clinical Research Fellowship – MD Required

The Program

The University of Rochester Department of Dermatology Clinical Research Fellow Program offers clinical research experience tailored to the needs of the fellow. Working with academic clinicians, the fellow will gain dermatology based clinical and research skills that will serve them and their patients in the future. The clinical fellow is expected to productively participate in the clinical research activities of the Department of Dermatology, is expected to publish at least one clinical research article during their fellowship and is expected to make at least one scientific presentation.

Fellow Supervision

Lisa A. Beck, M.D. is the Director of the Clinical Research Unit. Dr. Beck will assist and supervise the fellow in the acquisition of knowledge related to developing protocols for clinical research studies and utilizing methodology for measurement of clinical indicators, the proper conduct of observational and randomized clinical trials, and the appropriate data management.

Absolute Requirements

- MD Degree from US Medical School
- 1 year internship completed
- New York State Medical License - preferred by the beginning of the fellowship (July 1), but otherwise obtained as soon as feasible
- CV
- 2 letters of recommendation from Medical school or Internship.
- Scores from the USMLE Steps 1 and 2
- USMLE Step 3 (required to obtain New York State Medical License, which must be obtained prior to start of fellowship)

Dates

Two year fellowship that runs from July 1st of first year through June 30th of the second year.

Work Hours

Hours of Operation: Monday-Friday, 40 hr work week (with some flexibility about start and end times based on study subject recruitment needs and occasional weekend travel to investigator meetings may be required)

Stipend

Qualified candidates will be paid based on their PGY year following the NIH stipend guidelines.

Application

If you meet the above requirements and would like to apply, please send an email to alice_pentland@urmc.rochester.edu with a letter of introduction, your CV and USMLE board scores (1&2).
