

Colleges of Osteopathic Medicine August 2025

The American Osteopathic Association's Commission on Osteopathic College Accreditation (COCA) currently accredits 43 colleges of osteopathic medicine (COMs) operating at 70 different sites offering instruction to approximately 40,230 medical students for the coming academic year. This includes 37 fully accredited COMs with 20 additional locations and 7 branch campuses, as well as 6 pre-accredited COMs.

"Next Accreditation Visit" is when the COM will undergo its next comprehensive site visit.

"Established" means the year the first class matriculated at the COM, additional location, or branch campus.

A description of accreditation status such as "exceptional outcome" or "monitoring" refers to compliance with COCA Standards at the time of the review and does not reflect ongoing monitoring of program outcomes.
