

1-yr Private Practice Based Internship in Oral & Maxillofacial Surgery

Who Are We...

Oral Surgical Institute is a private practice that has been serving the middle Tennessee area for over 50 years. We pride ourselves on providing wide scope Oral & Maxillofacial Surgical care in multiple settings including hospitals, ambulatory surgery facilities, and in the office. We have 2 full-time dual-degree board certified OMS's who you will get to work with. We have a brand-new facility in midtown Nashville that is in the same building as a AAAHC certified ASC for larger cases. We take call at a local tertiary care hospital allowing your inpatient experience to rival any institutional-based program. This allows for an incredible opportunity for someone with an interest in becoming an Oral & Maxillofacial Surgeon to experience all aspects of maxillofacial surgery under one roof. This is NOT your typical "tooth & titanium" oral surgery shop!

Our Internship...

Oral Surgical Institute has sponsored a 1-year internship in Oral & Maxillofacial Surgery in Nashville, TN for the last 18 years. The internship has grown to be one of the most coveted private-practice based programs in the country. During your year here you will be exposed to 2500+ patient experiences including the diagnosis, planning, and treatment of those cases. We are viewed as a primary referral source for complex maxillofacial pathology in our metro area. The internship program emphasizes ambulatory anesthesia services, maxillofacial pathology, as well as the management of medically compromised individuals, in addition to routine dentoalveolar and implantology cases. After a year with us, your airway management, orthognathic/implant treatment planning, and IV access skills will make you a valuable asset to any future training program.

Where Are they Now...

Our primary goal as an internship is to improve your knowledge base and skillset in full-scope Oral & Maxillofacial surgery thereby making you a more competitive candidate for an Oral & Maxillofacial Surgery residency program. Our current intern recently matched at Maryland and our previous intern matched at Houston. In the last 6 years we have had interns match at Louisville, Shreveport, Indianapolis and NY Lutheran. We encourage you to speak with any of our previous interns regarding the experience they had during their time in Nashville.
