2036

Critical Care Medicine & Pulmonology Physicians

Critical Care Medicine Physicians care for critically ill or critically injured patients, often with acute impairment of one or more vital organ systems such that there is a high probability of imminent or life-threatening deterioration in the patient's condition. Pulmonology Physicians care for patients with lung diseases, sleep disorders, and critical illnesses related to lung function.

Supply & Demand Trends	U.S. Map	What if? Scenarios
Change in Total Supply 2022 - 2036	Change in Total Demand 2022 - 2036	Total Percent Adequacy 2036
7,860 ▲ 32% Starting Value: 24,710 Ending Value: 32,570	4,100 ▲ 16% Starting Value: 24,900 Ending Value: 29,000	112%
